Monday, 23 January 2012 13:55 -

We provide professional presentations describing normal speech and language development to:

□ Day Care Centers

□ Parent Organizations or Groups

□ Preschools/Schools

Topics for these presentations are tailored to each group and can include; early identification of communication deficits, techniques for expanding speech and language, and early warning signs of language problems. Time is designated at the conclusion of the presentation for a question and answer session with the certified therapist.
